EDUCATION

Dronacharya College Of Engineering

Bachelor of Technology in Computer Science and Engineering

Gurugram, Haryana

Expected July 2026

PROJECTS

Bheema – An AI Agent

Sep 2025

- Developed a voice-enabled AI assistant achieving over 90% speech recognition accuracy by integrating Google, YouTube, and weather APIs for real-time.
- Integrated multi-platform commands (Google, YouTube, News, social media) that boosted task automation efficiency by 50%.
- Engineered a customizable agent feature tracking 1000+ user interactions for enhanced personalization.

QuickGPT - Cool AI Assistant

Jul 2025

- Built a comprehensive AI assistant that provides instant answers with 95% accuracy, image creation, and code-based programs.
- Launched a credit-based platform driving 40% growth in user engagement with packages starting at Rs. 200.
- Engineered a community-sharing platform supporting 100+ simultaneous image uploads without performance lag.

Meal Bridge – A Food Donation Platform

Nov 2024

- Constructed an interactive food donation platform for donors and NGOs through a real-time conversation that simulated a 30% food waste reduction.
- Implemented Firebase Auth and Realtime Database, boosting platform performance by 40%.
- Designed responsive UI supporting all screen sizes, resulting in 100% accessibility compliance.

Task Handler – Remember your Work

Jun 2024

- Developed a personal productivity app that features a simplified interface and increased user task completion rates by 25%.
- Implemented CRUD (Create, Read, Update, Delete) operations with 99% success rate for task performance, thus data management is ensured to be reliable.
- Integrated dynamic filter to sort completed and pending tasks, enhancing task tracking efficiency by 30%.

WORK EXPERIENCE

MARUTI SUZUKI INDIA LIMITED

Gurugram, Haryana

App Developer Intern

Jul 2024 – Aug 2024

- Executed 5+ agile sprints, delivering features on schedule, resolving 5+ technical issues, and improving overall product stability by 35%.
- Identified and resolved 20+ critical bugs, reducing crash rate by 40%.
- Accelerated UI responsiveness by 25% through optimization and multithreading.
